10. Motions10.1 **Queen's Students' Union Council Response to the first Race Equality in Higher Education Conference on the island of Ireland in September 2023**

Council notes:

- The Queen's Gender Initiative/Race Equality Charter Network organised the inaugural Race Equality in Higher Education conference at Queen's in September 2023.

This Council further notes:

- Multiple current students and alumni participated in panel discussions and presentations.
- As student speakers attested, race equality and equity is everyone's job.
- Equity and equality is critical to the student experience.
- The Students' Union should adopt a culture of being actively anti-racist.

This Council believes:

- The emotional, mental, and physical welfare of all students is important.

- The Students' Union must recognise the mental health of students who are victims of inequity, race-based or racist abuse.
- The Students' Union Management Board should retain the services of an external body for the purpose of conducting an interrogatory race equity and equality review.
- Equality, diversity, and inclusion efforts commonly lack institutional transparency and accountability, and this is reflected in the Students' Union management.
- This work is being undertaken at the school-level and the Students' Union has already fallen behind.

Therefore, this Council resolves:

- In line with motion: "*Formalising logistical and wellbeing support for international and ethnically diverse student officers & implementing protocols for a more inclusive Students' Union*" the Students' Union Management Board will undertake an externally led review of cultural awareness and competency training, cultural biases, racism, and discrimination within the Students' Union by January 2024.
- The Council reaffirms its commitment to retain an external advisory board of international and ethnically diverse community leaders and organisations to lead efforts on inclusion, support, and widening participation for international and ethnically diverse students.
- The Students' Union Executive Management Committee shall consider how much funding will be required to support the Ethnically Diverse Students' Association, the International Students' Association, and other interested parties in addressing race equality in the Students' Union.
- The Students' Union should be represented at such conferences, and the Students' Union President or their designee(s) should share details of such conferences in advance with the Students' Union Director and their designee(s) and formally write to them to encourage their attendance.

10.2 **Extending Solidarity to Edinburgh University Student's Association (EUSA)**

Motion to take the first step in renewing our supportive stance towards the Boycott, Divestment, Sanction (BDS) campaign; by extending solidarity to Edinburgh University Student's Association (EUSA) following heavy-handed policing at a Justice for Palestine Society protest.

This Council notes:

- On Friday 20th October members of Edinburgh University Justice for Palestine Society, Socialist Worker Student Society, Stop the War Coalition, and other protest attendees were subjected to heavy-handed police tactics due to engaging and partaking in a protest organised by the Justice for Palestine Society. (Viewable at Edinburgh University Justice for Palestine Society Instagram: https://www.instagram.com/eu_jps/)
- Due to this the EUSA has drafted an open letter to their vice chancellor Professor Sir Peter Mathieson seeking explicit affirmation for Edinburgh University's student's right to protest as well as protection from further heavy-handed policing on their campus. (Viewable at: <https://www.eusa.ed.ac.uk/news/article/protesting-without-intimidation>)

- That although it is situation that is not currently directly transferable to Queen's University Belfast (QUB) or Queen's Students' Union (QSU), it remains that many of the concerns in the open letter to EUSA's respective vice-chancellor, are concerns, fears and feelings shared by QSU and its members. The sentiments at EUSA have in turn created requests for their VC.
- It is possible that now may be the time that we make the same requests from our own Vice-Chancellor, or extending solidarity would appear to be tokenistic in its first efforts.
- Queen's Students' Union's support in these regards during last year's policy change to post-graduate tuition fees, accommodation allocation as well as the support for students affected by aggressive but also successful industrial action was insufficient and at times non-existent.
- It remains that whilst in this current state students who were affected were used as pawns during negotiations.
- Recently students who may have wished to engage in direct action have felt that the Students' Union offered very little to no support in educational sessions highlighting acts that have taken place at QUB and QSU historically. Furthermore, there have been little to no sessions detailing your rights or responsibilities when partaking in such acts.
- QUB and QSU have both offered little to no support in the means of support for organised campaigning or fundraising by students wishing to dedicate their resources for those of which are affected by the ongoing conflict in the middle east; And all protests thus far have had little to no representation from a designated QSU student bloc.
- That the QSU's supportive stance for the Boycott, Divestment and Sanctions (BDS) campaign as seen in OTH/2016/8/10 is at this point totally insufficient and at this point a prominent display of a contradiction within itself. At the present, it serves only as a performative motion, consisting of words only. When at QSU, a stark contrast and insult is put upon its members when history has in the past shown QSU and its effectiveness at times such as these.

This Council believes:

- That by extending solidarity from QSU to EUSA and their policy to protect members of EUSA and members of Edinburgh University Justice for Palestine Society due to heavy handed policing we are doing the right thing. It should not need to be stated that students should not need to suffer from heavy handed policing whilst exercising their right to protesting.
- That many international students as well as students from other parts of the UK and indeed Southern Ireland feel intimidated and threatened by the Police Service of Northern Ireland due to the nature of the police as an institution as well as historical conflict within the city of Belfast itself.
- That if we are to nourish and protect students right to protest, we are by extending solidarity to EUSA, taking a proactive stance in support of their rights as well as our own as well.
- That by extending solidarity with students because of events that occurred due to a protest in support of the Palestinian people, we are taking the first step in renewing our stance in support of the BDS campaign.
- That QSU should create, edit, or facilitate a process to enable a failsafe protocol at times in which a student voice is desperately in need or want, but for whatever reason there may not be the ability at an officer level for one to exist.

- If Student Voice is going to become increasingly more valued than allowing and supporting students at times of civil dispute or global conflict is an effective and efficient way of doing so.

Therefore, this Council mandates:

- That as a union we should create a way of signing the open letter to support EUSA and their policy to protect members of EUSA and members of Edinburgh University Justice for Palestine Society and by doing so sending our solidarity following the events highlighted in Edinburgh University. We do this not because it reached national news, but because it is the right thing to do.
- That we look at how we refresh and renew our positive and proactive, vocal, and visible support for the BDS campaign.
- That by highlighting and subsequently exploring the almost frightening relevance in the following extract from the open letter from EUSA – QSU officers should explore the relevancy and requirement of not only supporting this letter but also drafting a much-needed similarly tailored to suit letter to Sir Professor Ian Greer in much needed timely fashion:

“While we understand that the University cannot forbid Police from our campuses, it is vital that the University’s own Security Team intervene and work to deescalate situations like those that took place last Friday. We believe the response to Friday’s action was disproportionate. It unnecessarily escalated an already tense situation on-campus and posed a real threat to student safety. If the University felt disciplinary action was necessary, the University’s Code of Student Conduct provides plenty of scope, without any need for Police intervention.

The University’s commitment to freedom of expression and to students’ wellbeing must extend to student protestors. These protestors hold the University and political leaders to account. It is unacceptable for the University to prioritise the protection of its property over the protection of its students.

We are therefore calling on the University to:

- *Make a public statement affirming students’ right to protest, on and off our campuses.*
- *Commit to a proportionate, Security-first approach to managing on-campus protests, which prioritises student welfare and is in-line with the University’s duty of care towards students.*
- *Ensure University Security staff are equipped with the skills to effectively deescalate situations, including at protests, and engage with students from marginalised groups.*
- *Failure to address this issue risks exacerbating the distrust between the University and its students.*
- *We therefore urge you to take action as a matter of urgency.”*
- That by sending a similarly drafted and relevant open letter to Sir Professor Ian Greer in the wake of supporting EUSA and their policy to protect members of EUSA and members of Edinburgh University Justice for Palestine Society; we are alleviating some concerns, fears as well as clarifying some of, clarifications and considerations that are needed and currently posed by students represented by QSU.

- To investigate the scope for the possible development of a student initiative that will not only live up to the historical achievements that members of QSU of the past have been a part of, but that also allows students who are yet to become members must look forward to. This initiative should be supported but not run by officers, this to avoid ineffective activism, favouritism as well as performativism. The initiative should take consideration as to not be labelled or structured club or society as it can leave it to fall foul and victim to the various internal issues that can arise from within them. Although the initiative for QSU could benefit from the benefits that clubs and societies on a huge scale so consideration of that should be brought into the development process. The scope for a newly designed internal structure, revamp of responsibilities as well as inclusivity of membership that becomes mandatory for political societies could also be considered during this initiative shaping process.

10.3 **Referendum: Decolonise, Demilitarise and Democratise Queen's University Belfast**

Council approves calling of a Referendum to determine the opinion of Student Members on the following issue:

Decolonise, Demilitarise and Democratise Queen's University Belfast

Background:

- Queen's University Belfast handles its investments through BlackRock, the largest investor into oil, gas and coal of any investment management company.
- Queen's University Belfast, via BlackRock investment management fund, invests its money into companies such as Elbit Systems, which is an Israel based defence electronics company that creates spy-ware and military aircraft that are utilised in the illegal occupation of Gaza and the West Bank, contributing towards 85% of Israeli arms.
- Blackrock also invests in banks that use funding to prop up illegal settlements in the West Bank, in violation of International Law.
- Queen's University Belfast also has strong academic and partnership ties to the Thales Group, an arms company which specialises in the development of missile systems. These are sold to governments which have a record of using these weapons to subjugate workers, attack refugee camps and destroy communities. Thales also jointly operates with Elbit Systems on the manufacture of Israeli drones. Queen's works with Thales to provide placements for students.
- Queen's University Belfast has a long-standing relationship with BAE Systems, which over the course of the Saudi-Yemeni War, sent £16.7 billion to the Saudi Arabia government. This conflict has directly killed nearly 20,000 Yemeni civilians. There were numerous allegations of bribery levelled at BAE Systems and their political involvement has been substantial in the UK and the US. It is also a major seller to Turkey which is operating a bombing campaign in Rojava/North and East Syria.
- Queen's University Belfast's Chancellor Hilary Clinton has been a strong supporter of colonialism and has openly supported the bombing campaign against Gaza which has led to over 10,000 dead including over 4,000 children.

- Many of the civilians of this war have been killed while in refugee camps.
- Due to the decentralised nature of Schools and Faculties, there are ties to the military and to fossil fuel industry that are yet unknown.

The Students' Union Has the Following Related Policy Positions:

- *An Antifascist and Antiracist Students' Union* (Policy Ref: COM/2022/6/7) and *Anti-Fascism & Anti-Racism* (Policy Ref: COM/2019/6/2) which solidify QSU as an antifascist and antiracist union.
- *Establishing a Campaign to Make QUB a University of Sanctuary* (Policy Ref: COM/2018/6/2) which supports the University to become a University of Sanctuary.
- *Justice and Human Rights for Palestine* (Policy Ref: OTH/2016/8/10) that maintains the Union supporting human right and justice in Palestine and the Union's support for Boycott, Divestment and Sanctions of the Israeli occupation.
- *Fossil Fuel Divestment* (Policy Ref: OTH/2015/8/2) Motion 8.05 which calls for the divestment of all fossil fuels by Queen's University Belfast, and *Amendments to the QUB Green New Deal* (Policy Ref: DGR/2021/4/1) which included a demand for fossil fuel divestment, which has been incorporated into the University's Strategy 2030 corporate plan.

Queen's Students' Union Believes that:

- A university should not act as a funnel for fossil fuel companies or the military industrial complex.
- Sheltering investments through BlackRock is a move taken to avoid accountability for unethical investment practices.
- BlackRock's large portfolio of fossil fuel companies, arms companies, unethical banking practices and more undermines the principles behind the great work done to reach Net-Zero carbon emissions and any attempts to become a University of Sanctuary.
- Queens should not invest in or collaborate with companies that trade arms to countries that violate international law.
- The military-industrial-academic-complex creates incentives to support the psychological, moral, and material interests of colonial markets and the destructive enterprise of war.
- University financial and academic ties should reflect the values of the students, staff and academics who make up the University.
- The University's decisions should not be based around the interests of profit but the interests of the staff and the students that make up the University.
- That, given the current model of university-for-profit, there should be democratic accountability for any and all partnerships, research and investments to ensure these are representative of the ethos and values of the constituents that make up the University.
- If the University wants to become more international, it should take an active and public stance on promoting peace and equality internationally and oppose colonisation and occupation.

- If the University wants to become a University of Sanctuary, it should not have a relationship with organisations which cause displacement and are used to target refugee camps.
- If the University wants to be seen as a symbol of peace, it cannot have Hilary Clinton representing it as Chancellor while she continues to make statements that condone and support war crimes and ethnic cleansing.
- The University cannot claim to have a neutral stance on the Israel-Palestine issue while it is financially, politically and culturally supporting a state which is committing atrocities.

Queen's Students' Union Agrees:

- That the Union put pressure on the Senate, the Planning and Finance Committee, the Investment Committee, and the respective Schools for the University to cut all contact with any organisations which supply arms to states or institutions which violate international law.
- That the Union put pressure on the Senate, the Planning and Finance Committee, and the Investment Committee to completely divest from Blackrock.
- For any replacement for Blackrock must be reviewed by a group involving democratic representation from all Unions on Campus.
- That the Union put pressure on the Senate and any 'Special Committee' (set up to appoint a Chancellor) to dismiss Hilary Clinton as Chancellor and to boycott and organise protests against any events she attends as Chancellor of this University.
- That the Union put pressure on governmental reform within the University to ensure that the Investment Committee, Planning and Finance Committee and Senate have at least 50% voting membership given to the Unions representing the students and workers on campus.
- That the Special Committee must include a 50% voting membership to the decision to appoint a Chancellor.
- That the decision of the Special Committee must be put to a referendum across all staff and students.

10.5 Provisions for Pregnant Students & Parents

Council notes:

- There is no Individual Student Support Agreement (ISSA) like structure for pregnant students, this means they need to apply multiple times for extensions for the same underlying cause (pregnancy and all it entails.)
- There is no specific breastfeeding room in the Students' Union, and whilst we recognise that breastfeeding is welcome all throughout the SU, the option of a private comfortable room is not one that a student can currently avail of.
- There are no nappies/baby food/baby wipes available currently in the Pantry.

Council believes that:

- The lack of the ISSA like structure and the subsequent need to constantly apply for an extension for the same situation causes unnecessary hassle and stress for pregnant students.
- The lack of a breastfeeding room can cause hassle for a student who wishes to avail of such a room. There are breastfeeding rooms across campus, however a student should not be made to leave the SU to avail of one of these when one could be opened within the SU. This motion does not seek to undermine those who choose to breastfeed publicly throughout the SU, but simply offers more choice to parents.
- The cost-of-living crisis is hitting students hard, and in particular those with dependents. The Pantry was opened to ease financial stress on students; however, the lack of nappies/baby food/ baby wipes, for some, furthers this stress.

Council resolves that:

- Pregnant students should only have to apply once for an extension package which will apply for the remainder of the academic year. SU will look into this, and push for this to be implemented. This will ease stress and enable students to be treated holistically.
- A private comfortable feeding room for babies will be looked into by the SU to be created from an existing room in the SU. This will allow for the comfortability of students, to use the SU with more ease as they know they can avail of this room, if necessary, rather than move across campus with their dependant.
- SU will push for the Pantry to provide nappies, baby food, and baby wipes. This will ease the cost-of-living crisis effect on students with dependants and allows parents to know in an emergency that their child will not go without toiletries.
