

September

Most of Freshers was largely dominated by Freshers Fair. We were focused on using these weeks to ensure a high level of engagement with the Union, actively going out onto campus as well as at the Freshers' Fair to recruit for Course Reps and Student Representatives on Council.

However, at the end of Freshers, I began the process for the creation of a Student Manifesto, holding an introductory meeting to explain the process and create a discussion as to what would be needed to be included in it as well as establishing some policy leads.
