

What does Eli do? Do they do anything at all?

December

- Participated in the reforming of the Universities widening participation policy. As currently students admitted under widening participation are not supported as much as they should. I have pushed for increased support for these students as they undertake their courses, such as academic assistance and increased funding for students from low-income backgrounds.
- Attended the community of practice for Student rep-coordinators.
- Answered questions alongside SU voice surrounding the rep system within EPS
- Attended graduations as part of the Academic procession.
- Met with the new SSESW school rep to prepare them for taking their role up in January.
- Took part in the pathway selection panel, shortlisting potential candidates based on their statements.
- Provided updates at the NUS-USI membership meetings, informed both the national Union alongside SERC and UUSU on what our plans for the upcoming term are along with any successes from this past term.
- Attended CSF
- Attended AHSS Faculty Operations Group.
- Attended MHLS Faculty Education committee.
- Met with Ciaren Graham, the new Dean of MHLS.
